MALEK BEN JEMIA

Cyber security master student & Penetration tester

malekbenjemia1@gmail.com | +4915510784187 | Germany
malek-benjemia

With 6 years of cybersecurity learning experience and a strong networking background, I'm a cybersecurity aficionado, and I'm actively learning and I'm eager to embrace new opportunities

LANGUAGES

Arabic: **Native**
German: **A2**
English: **Fluent B2**
French: **Fluent B2**

KNOWLEDGE

Routing & Switching
TCP/IP
Firewall management
SIEM | IDS /IPS
OWASP | OSINT
Network & Web pentesting
C | Java | Python

TOOLS

Nmap | Burp Suite
Packet tracer
Wireshark | OpenNMS
Hydra | metasploit
John | SQLmap
proxychains

CERTIFICATIONS

eJPT | CCNA RS

EDUCATION

Exchange Student | Schmalkalden University

04.2024 – Present | Thuringia, Germany

Engineering | TEK-UP

09.2021 – Present | Ariana, Tunisia

Bachelor | ISET Rades

09.2017 – 06.2021 | Rades, Tunisia

EXPERIENCE

End of studies project : Network Implementation and Design | TMI

02.2021 – 06.2021 | LAC 3, Tunisia

- Designed and implemented network infrastructure for TMI/ORADIST Headquarters.
- Engineered a highly available LAN with redundancy.
- Implemented MAC address authentication for VPNs.
- Utilized monitoring tools: OpenNMS, Pandora FMS, Cacti, Nagios, PRTG.
- Specialized in WIFI-6, Access Control, Firewall Config, High Availability, VLANs, IP Cameras, IP Phones, SNMP v3.

Internship | Centre de Transmission Numérique TUNISIE TELECOM

01.2020 – 02.2020 | Ez Zahra, Tunisia

- Commissioned and managed dedicated lines for seamless connectivity.
- Identified and reported networking equipment faults for prompt resolution.
- Maintained transmission equipment for optimal functionality and uptime.
- Tools: Cisco Prime, Huawei U2000.

Internship | Arab Tunisian Bank

01.2018 – 02.2018 | El Mourouj, Tunisia

- hands-on experience in managing customer info, processing transactions, and handling inquiries.
- Develop proficiency in documentation, record-keeping under supervision.
- Learning essential banking procedures

ACHIEVEMENTS

- TOP 100 HTB Hall of fame
- Elite Hacker Rank HTB
- TOP 7% THM

PROJECTS

Business Continuity Plan Audit | Load balancer advantages in enterprise BCMS hosting

10.2023 – 11.2023

- Used Traefik solution on odoo interface
- Load balancer helped distributing the traffic on duplicate containers

Audit according to 27001 | Implementation of a HA architecture based on an open source WAF

11.2023 – 12.2023

- Enhanced Web Security through OWASP ModSecurity and Custom Rule Integration
- Optimized Load Balancing and Scalability with Traefik for Odoo and PostgreSQL
- Implemented Comprehensive Monitoring and Automated Maintenance for High Availability

Network security |

10.2023 – 12.2023

- Implementation of an open source Network operational center solution

summer project | Cowrie : an open source honeypot

07.2023 – 08.2023

- Implementing an open source honeypot solution
